EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Reasons for Examiner's Amendment

In claim 3, semicolons have been used to more clearly set forth the three required polymer components.

3. The application has been amended as follows:

In claim 3,

line 4, after "terephthalate", the comma has been replaced by a semicolon;

line 5, after "butylene terephthalate", the comma has been replaced by a semicolon;

line 7, after the first occurrence of "component", the comma has been replaced by a semicolon.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a polyester film with the recited ethylene terephthalate, butylene terephthalate, and polyoxyalkylene glycol content, wherein: (1) the film comprises a three component blend containing an polyether-ester containing the polyoxyalkylene glycol (claims 3, 27); (2) the film having the recited physical properties (claims 30-32). JP '417 fails to disclose a blend comprising the three recited polymeric components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Examiner's Comment

In regard to Applicant's question about "#" in the rejections under 35 USC 112, second paragraph, in the previous Office Action, the "#" was an inadvertent typographical error and was supposed to be "rapidly cooled".
